Kinky Durakee

Dedication (Joeseap)

???

This, the 2nd single release from Edinburgh's very own Kinky Durakee confirms them as a band of guts and confidence, proudly wearing their rockist influences on their sleeves while also taking them into brand new territories. Unlike some bands, they've realised that what most people want is simple music played with flair, enthusiasm and real imagination. The accompanying press release calls them "Madonna with balls" and that's bang on the money. This is a big, bold, brassy pop tune and the perfect soundtrack to light up our waterlogged (thus far, anyway) summer.
