

Kinky Durakee

Hugely distinctive vocals by Gulzhan make Kinky Durakee one of the most easily recognizable bands in the UK. Originally from Kazakhstan Gulzhan is now based in Edinburgh with fellow band members Paul Finnie, and Gareth Brown.

The band formed their own label Joe Soap Records Ltd to release their own EP/Single Iskala. Described by one respected scribe as 'Madonna with balls...!' the band received exposure on terrestrial and internet radio including shows such as Beatscene Beat106, Streaming Radio, Scottish Internet Radio etc. The bands new single 'The Answer' featured on the EP and such was the live reaction to the track the decision was taken to release the song as a full single.

Easier to listen to than describe, the band deliver songs with choruses that will be trapped in your head for days. They will make you dance, they will make you think, they will make you sing, and the release of the new album "Separate Together in early 2007 will show the full and broad musical talent of one of the hottest bands in Scotland right now

Two of the bands new tracks, Your Sin City and Separate Together are posted on their Myspace site (www.myspace.com/kinkydurakee) and you can expect live dates to be confirmed soon to promote the forthcoming album.
